

12' x 20' Large Metal Building

12' x 20' Large Metal Building

For Large Metal Buildings—whether to park a SUV or for storage look for are **strength and durability**. DuraMax Large Metal Buildings offer—by far—the best combination of these features. The DuraMax 12' x 20' Large Metal Buildings boasts 1693 cubic feet of space with 99" single door that is wide enough to drive in common SUVs. They are reinforced with metal inserted columns for even greater rigidity and strength. This Large Metal Building can handle at least 20 lbs per square foot of snow. Their attractive design and color go well anywhere.

- Will Not Fade, Rot, or Mildew like Typical Painted Wood Sheds
- Reinforced with Metal Inserted Columns for Even Greater Rigidity and Strength
- Extra Wide Double Doors 99" Fits All Common SUV's
- Shelves Can Be Attached to Columns
- Metal Reinforced Roof Support Truss System Holds Up Over 20lbs/sqft of Snow
- Easy Access Ramp to Enable SUV to Drive In

Lead Time 10 Days

Metal Construction

DuraMax Large Metal Buildings are Stronglasting™, which means they are not just strong and durable, they are also low-maintenance. They are the strongest steel outdoor building you can find today. Most Metal Buildings have thin, flimsy walls that dent and ding soon after you assemble them. DuraMax Buildings have thicker steel walls and a special rib design for greater strength and dent resistance. They are wider and taller comparable to other metal sheds. You get a tall walk-in building with much more room for SUV or storage.

Assembly Made Easy

The assembly is simple, clean, safe and can be completed in a few short hours. All parts are pre-cut, drilled and numbered for ease of assembly. All you need to provide is a level surface of either wood or concrete, the size of the desired building. In addition, you will need a drill with a #1 Phillips head, hammer, measuring tape, pliers and a ladder. Foundation kit included.

Packaging

The building is packaged in heavy duty shrink wrapped cardboard boxes. The packaging includes all components, hardware and an illustrated step-by-step instruction booklet.

Ten Year Warranty

DuraMax Metal Buildings utilize the best quality materials, reliable manufacturing techniques, strict quality control and are backed by a 10 years Limited Warranty.

Metal Buildings 12' x 20'

Item #	Description	Exterior Dimensions			Door Dimensions			Price
		Width	Depth	Height	Width	Height	Weight	
xxxxx	12' x 20' Large Metal Bldg.	146"	237"	101"	91"	80"	xxxx lbs	xxx.xx

Foundation Kit requires plywood flooring (floor not needed if concrete foundation is used).

Please do the following prior to your DuraMax Vinyl Garage Purchase

- Check with your local city hall for building ordinances & CCR's.
- Be sure that intended placement of building is within your property lines.
- Measure the size of the intended building site and make sure you have a level wooden or concrete foundation (Foundation Kit Included).
- Do not build shed over utility lines (i.e. gas, electrical, telephone, cable, etc.)
