

10' WoodBridge Vinyl Storage Sheds

The 10' wide WoodBridge Series is our signature line that gives you the ultimate solution for all your storage needs. If you have the room this is the ideal storage for you. With large cubic storage space starting at 480 cubic feet and expanding to 1,944 cubic feet, there is no better valued vinyl storage shed in the market place today.

This tall walk in shed features tall and wide double doors. The wall columns are reinforced with a solid metal structure that gives the shed strength as well as allows you to hang shelves or garden tools. These larger sheds can also be used as a hobby or activity room.

Vinyl Construction

DuraMax Vinyl Storage Sheds are manufactured with durable and maintenance free vinyl. These sheds provide safe and secure storage space. The sheds are reinforced with a strong metal structure that will carry up to 20 lbs/sqft snow load. They are all weather durable and will never rust, rot, dent or mildew.

Assembly Made Easy

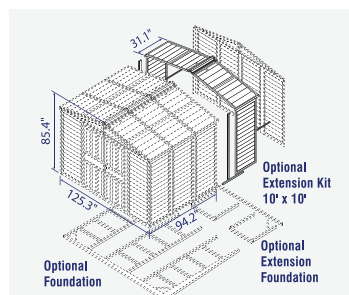

The assembly is simple, clean, safe and can be completed in a few short hours. All parts are pre-cut, drilled and numbered for ease of assembly. All you need to provide is a level surface of either wood or concrete, the size of the desired garage. In addition, you will need a drill with a #1 phillips head, hammer, measuring tape, pliers and a ladder. Foundation kit included.

Packaging

The shed is packaged in heavy duty shrink wrapped cardboard boxes. The packaging includes all components, hardware and an illustrated step-by-step instruction booklet.

Fifteen Year Warranty

DuraMax Sheds utilize the best quality materials, reliable manufacturing techniques, strict quality control and are backed by a 15 years Limited Warranty.

Optional Kits

Foundation Kit

Window Kit

Please Do The Following Prior To Your Duramax Vinyl Storage Shed Purchase:

- Check with your local city hall for building ordinances & CCR's.
- Be sure that intended placement of building is within your property lines.
- Measure the size of the intended building site and make sure you have a level wooden or concrete foundation
- Do not build shed over utility lines (i.e. gas, electrical, telephone, cable, etc.)
